

In Pursuit of Accountability

Palestinian and Israeli organisations working together for human rights

19th April 18:30 - 20:00

Amnesty International UK,

Human Rights Action Centre,

17-25 New Inn Yard, London, EC2A

Amidst the further deterioration of human rights and the heightened risk of instability in Palestine and Israel, join us for a panel discussion with human rights defenders working to combat impunity through national and international courts. Based on their experience documenting violations and living in an increasingly restrictive environment, the speakers will address recent settlement expansion, longstanding and systemic impunity for violations of international law and the mounting restrictions placed on civil society organisations.

SPEAKERS

Moderator: **Neil Sammonds** Director of Advocacy and Campaigns, Medical Aid for Palestinians
